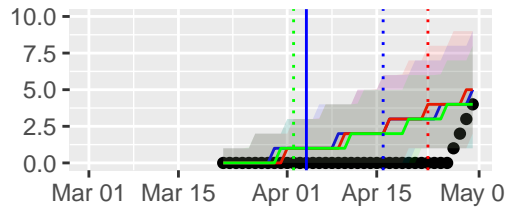

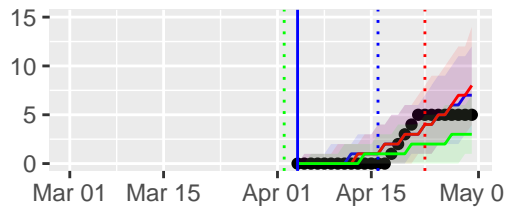

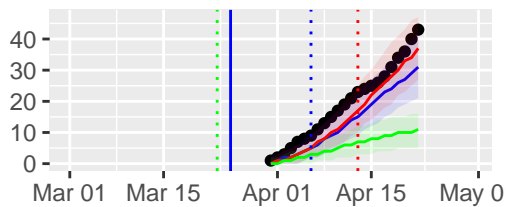

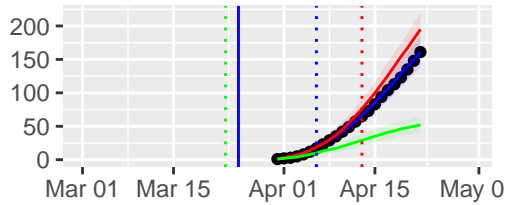

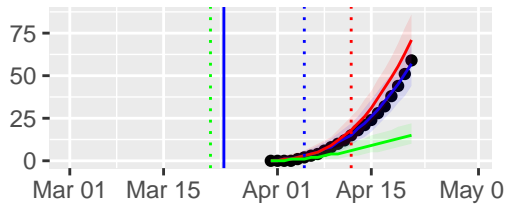

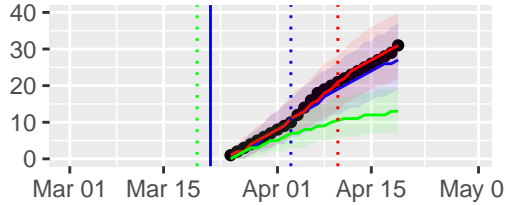

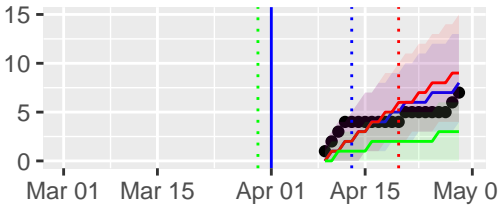

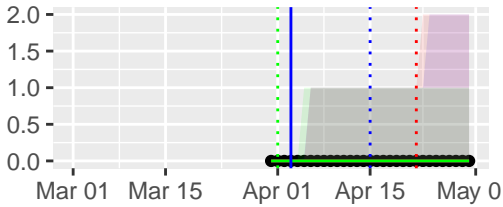

Figure 1 is a line plot showing the daily number of new cases in the United States from March 1 to May 1, 2020. The x-axis represents time, with major ticks for March 01, March 15, April 01, April 15, and May 01. The y-axis represents the daily number of new cases, ranging from 0 to 1000. The plot includes observed data (black dots), a fitted model (red line), and a shaded area representing the uncertainty interval. Vertical dashed lines in blue, green, and red indicate specific dates in April.
